## About WorkTime

WorkTime<sup>®</sup> is an automated employee & computer monitoring system, designed to monitor offices with 1 to 15,000+ computers and 300+ Terminal/Citrix servers. WorkTime offers a non-invasive and highly informative monitoring functionality, highlighting any weak productivity points, e.g. insufficient working hours, poor attendance, idle times, using computers, software and Internet for personal needs and more.

More about WorkTime:

<https://www.worktime.com/present-to-boss>

WorkTime is field tested on sites with 15,000+ computers for years.

The system is designed to process large volumes of information.

The system is designed to use very little system resources (CPU, memory and network).

Multi-level data protection design insures data safety in the case of any network or hardware failure.

The last major release: WorkTime 7.

WorkTime latest release offers 80+ well categorized reports. WorkTime reports highlight the overall situation at a glance and allow fast investigation of any weak points.
