Prices

WorkTime Corporate Prices:

From \$59.95 to \$13.50 per user/computer or
\$480 per Terminal/Citrix Server.

The cost can be calculated here: www.worktime.com/buy
To extend updates and support to another year or to purchase additional licenses please contact: support@worktime.com

Monitored Computer is a computer where WorkTime Client (monitoring agent) is installed.

Monitored User is a user that uses monitored computers. WorkTime identifies users basing on the Windows Login Names. If the same user logs in to different computers using the same Windows Login Name then WorkTime identifies this user as the same.

Choose Your License Type

1. Per User/Computer

If monitoring individual computers, WorkTime Corporate licenses are counted based on minimum of users and computers.

For example:

To monitor 100 users and 70 computers, 70 WorkTime Corporate individual licenses are required.

To monitor 250 users and 300 computers, 250 WorkTime Corporate individual licenses are required.

2. Per Terminal/Citrix Server

If monitoring Terminal/Citrix servers one of the following licensing types can be chosen:

- 2.1. Per User (Refer to 1. Per User/Computer)
- 2.2. Per Terminal/Citrix Server (Unlimited users per server):
In this case WorkTime licenses amount is equal to amount of Terminal/Citrix servers.

For example:

To monitor 1000 users on 50 Terminal/Citrix servers

- 2.1. 1000 licenses are required on per user basis or
- 2.2. 50 licenses are required on per Terminal/Citrix server basis.

3. Mixed: Per Terminal/Citrix Server + Per User/Computer

In this case one of the following options is available:

- 3.1. On per user basis (Refer to 1. Per User/Computer)
- 3.2. On per Terminal/Citrix server basis (Refer to 2. Per Terminal/Citrix Server) + On per user basis (Refer to 1. Per User/Computer)

For example:

To monitor 10 Citrix servers (with 200 users using the servers) and 70 users/computers (not using Citrix servers)

- 3.1. Either 270 WorkTime Corporate individual licenses are required or
- 3.2. 10 Citrix server licenses + 70 individual licenses are required.
