

WorkTime® executive summary

Performance & Privacy

WorkTime is a professional-grade employee monitoring solution focused on **improving productivity without tracking private content**.

WorkTime delivers essential performance insights - **attendance, productivity, active/idle time, performance progress, in-office/remote/hybrid**.

What Makes WorkTime Different

Non-Invasive by Design

1. WorkTime **does not record content**: keystrokes, screenshots, messages, video, sound, or other private data.
2. It **monitors only what matters for business** performance - nothing more.

Compliance-Centered

1. **HIPAA**-safe & **PHI**-safe mode
2. **GDPR**-safe mode (EU & UK), PIPEDA, POPIA
3. **Role-based access, data encryption**

Transparent & Ethical

WorkTime supports full transparency:

Data employees can understand and managers can share | Monitoring notices | Employee handbooks

Proven Results

Companies across **healthcare, insurance, banking, defence, finance, government, education, IT**, and **remote-first industries** use WorkTime and report doubled productivity - while being accepted well by the staff due to its non-invasiveness.

UK bank, 170 employees, remote team monitoring

Before WorkTime

After WorkTime

"We've been using WorkTime for years across approximately 4,000 computers to measure essential KPIs like productivity and attendance. It helps us keep employees engaged. Our top priority was monitoring without going too far - and WorkTime delivers exactly that."

- *Amica* Mutual Insurance

Enterprise-Ready. Effortlessly Scalable.
